

PREREQUISITE STATISTICS COURSE LIST

The following is a list of courses that have been previously approved by IUSSW. If a course is not listed, it does not automatically mean the course does not meet this requirement. It only indicates that you need to submit appropriate documentation for our review to determine acceptability. Do not assume that all course titles are interchangeable and therefore acceptable. Course numbers, titles and university names must match exactly as listed here. If your course is not on the following lists, then you must provide appropriate documentation with your application. Appropriate documentation is a syllabus and/or a course description copied from a bulletin.
