Course Description

The purpose of this course is to develop the competencies necessary to effect policy change for service delivery systems at an organization, community, and legislative level. Emphasis is placed on policy practice, policy analysis, and advocacy leadership with direct involvement in the political and organizational processes as an integral part of the learning process. The content of the course will focus on the role of the “social policy practitioner” closely examining the relationship of social work values and ethics to social policies and service delivery systems, especially as they relate to diverse and oppressed populations.

Course Competencies

Council on Social Work Education (CWSE) 2015 EPAS Competencies addressed by this course.

Primary
- Competency 5: Engage with Policy Practice
  Social workers identify, assess, analyze, and advocate for social policies at the local, state, and federal level that impact well-being, service delivery, and access to social services.

Course Objectives

D618-01 Understand and analyze the major social issues and trends, including their historical context, affecting the development of social policy at all levels, locally, nationally, and globally.
D618-02 Demonstrate a grasp of the legal frameworks, along with the political, economic, and social constraints on agencies, historically and into the twenty-first century that influence and govern services.
D618-03 Develop an awareness of the integral relation between policy and the structure, organization, and funding arrangements of service delivery systems as well as the intergovernmental relationships involved in dealing with policy issues.
D618-04 Examine current data and research to analyze social policy issues as well as the impact of federal and state polices on related populations.
D618-05 Critically analyze the issues of social, economic and environmental justice, and power that lead to health inequities, discrimination, and oppression (for age, class, color, culture, disability, ethnicity,
family structure, gender, marital status, national origin, race, religion, sex, sexual orientation, and veteran status) in relation to policy development, implementation, and evaluation.

**D618-06** Demonstrate cultural humility, cultural competence, and enhanced self-awareness when working with populations that have been traditionally marginalized (on the basis of age, class, color, culture, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, sexual orientation, and veteran status) recognizing the significant impact social programs and policies can have on these groups.

**D618-07** Engage in policy design using ethical frameworks to understand the policy formation process, policy research and analysis, along with the strategic planning needed for social policy initiatives.

**D618-08** Apply advocacy skills and strategies working in collaboration with community members, groups, and organizations to participate effectively in the legislative process.

**D618-09** Participate in writing a bill or a policy brief using evaluative measures and selective framework(s) that gauge the policy impact and the potential for unintended consequences.

**Required Texts**

**Course Content**

In this course, students will develop essential policy practice skills with a focus on assessment, analysis, and advocacy in relation to service delivery systems that address diverse populations and correlating social issues. These populations include, but are not limited to, age, class, color, culture, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, sexual orientation, and veteran status. Students will examine the significant political and policy contexts at organizational, community, and legislative levels and will consider multiple policy strategies for achieving social, economic, and environmental justice and combating the causes and effects of institutionalized forms of oppression. This course will also utilize a variety of policy frameworks and models to advance skill building with an emphasis on social work values and ethics and a focus on cultural humility at all levels of policy intervention.

Students will accomplish learning objectives in this course through a variety of classroom tools, including videos, small and large group discussions, group projects, written assignments, and/or student presentations. The primary evaluation of student learning will be completed through a policy analysis assignment that provides students the opportunity to research and evaluate a specific policy then develop a policy statement based on the outcomes of the overall policy analysis.

**Resources**

- Canvas email will also be used a way to communicate between instructor and students. You are expected to check the course announcements on Canvas before each class.
- Additional readings will be assigned throughout the semester and be posted on Canvas (Resource tab).

Grading Standards

Papers are graded on the quality of the final product not on the effort you extended completing them. The grade of A is reserved for truly outstanding work that goes beyond basic requirements.

In the Indiana University School of Social Work MSW program, grades of B are the expected norm. Reflecting competency and proficiency, grades of B reflect good or high quality work typical of graduate students in professional schools. Indeed, professors typically evaluate students’ work in such a way that B is the average grade. Grades in both the A and the C range are relatively uncommon and reflect work that is significantly superior to or significantly inferior, respectively, to the average, high quality, professional work conducted by most IU MSW students. Because of this approach to grading, students who routinely earned A grades in their undergraduate studies may conclude that a B grade reflects a decrease in their academic performance. Such is not the case. Grades of B in the IU MSW program reflect the average, highly competent, proficient quality of our students. In a sense, a B grade in graduate school is analogous to an A grade in undergraduate studies. MSW students must work extremely hard to achieve a B grade. If you are fortunate enough receive a B, prize it as evidence of the professional quality of your work.

Grades of A reflect Excellence. Excellent scholarly products and academic or professional performances are substantially superior to the “good,” “the high quality,” “the competent,” or the “satisfactory.” They are unusual, exceptional, and extraordinary. Criteria for assignments are not only met, they are exceeded by a significant margin. Excellence is a rare phenomenon. As a result, relatively few MSW students earn A grades.

Grades of B signify good or high quality scholarly products and academic or professional performance. Grades in the B range reflect work expected of a conscientious graduate student in a professional program. Criteria for assignments are met in a competent, thoughtful, and professional manner. However, the criteria are not exceeded and the quality is not substantially superior to other good quality products or
performances. There is a clear distinction between the good and the excellent. We expect that most MSW students will earn grades in the B range—reflecting the good or high quality work expected of competent future helping professionals.

Grades of C and C+ signify work that is marginal in nature. The scholarly products or professional performances meet many but not all of the expected criteria. The work approaches but does not quite meet the standards of quality expected of a graduate student in a professional school. Satisfactory in many respects, its quality is not consistently so and cannot be considered of good or high quality. We anticipate that a minority of MSW students will earn C and C+ grades.

Grades of C- and lower reflect work that is unsatisfactory. The products or performances do not meet several, many, or most of the criteria. The work fails to approach the standards of quality expected of a graduate student and a future MSW-level professional. We anticipate that a small percentage of MSW students will earn unsatisfactory grades of C-, D, and F.

**Grading scale**

Grade minimums are as follows [Note: grades below C are Unsatisfactory in the MSW Program]:

- A 93% Excellent, Exceptional Quality
- A- 90% Superior Quality
- B+ 87% Very Good, Slightly Higher Quality
- B 83% Good, High Quality (expected of most MSW students)
- B- 80% Satisfactory Quality
- C+ 77% Marginal, Modestly Acceptable Quality
- C 73% Marginal, Minimally Acceptable Quality
- C- 70% Unsatisfactory Quality

**Course Policies**

**Assignment**

Students are expected to submit all assignments on time. If you need to extend a deadline you MUST speak to me in advance of the due date to get an approval and an agreement will be reached. Late submission (except by prior agreement) will be marked down 5% per day late. IU has a subscription with the Turnitin plagiarism detection service, and faculty members have the right to submit student papers to the service to check for originality. Turnitin.com service will be used for all student papers in this course.

**Attendance and participation**

Students are expected to attend and participate in all class sessions. Students should complete readings and homework as assigned and come to class prepared for discussion and questions. Because of the nature of this course and group assignments, regular attendance is required and extremely important. Class attendance and active participation in class activities are considered essential for the satisfactory completion of the course objectives. If you are absent, it is your responsibility to get notes from other students regarding materials
covered during your absence. If you are absent on the day when an assignment is due, you need to submit your assignment before the beginning of the class. Missing more than 2 of the scheduled classes will result in a letter-grade deduction for the course. Late arrivals and early departures will also lead to course point deductions. It’s up to instructor’s discretion to decide the deduction points. If you miss five or more classes you will fail the course.
