Course Description

Given current changing demographics, complex social problems, human service providers will serve a more diverse and perhaps more vulnerable population. A large number of clients will find it challenging to access the maze of increasingly decentralized social services. Case management may help to address some of these issues. This course will introduce various case management models and the roles and functions of case managers. It will highlight the nature of client participation and the mutuality of the helping process. Ethics and ethical dilemmas will be addressed. Skills for client centered, culturally competent case management will be explored.

Course Objectives

As a result of having completed the requirements of this course, the student will be able to:

- **S201-01** Demonstrate knowledge about case management including current models, perspectives, and research.
- **S201-02** Demonstrate knowledge about the helping process and related skills.
- **S201-03** Understand case manager’s roles and functions.
- **S201-04** Articulate the interrelatedness of the human service delivery system and clients’ well-being.
- **S201-05** Analyze the ethical implications of the values and assumptions of selected models of case management.
- **S201-06** Analyze the usefulness of selected case management models when working with populations-at-risk.
- **S201-07** Understand the importance of values and cultural/ethnic consideration in the provision of case management.

Grading Standards
Papers are graded on the quality of the final product not on the effort you extended completing them. The grade of A is reserved for truly outstanding work that goes beyond basic requirements.

Grades of A reflect Excellence. Excellent scholarly products and academic or professional performances are substantially superior to the “good,” “the high quality,” “the competent,” or the “satisfactory.” They are unusual, exceptional, and extraordinary. Criteria for assignments are not only met, they are exceeded by a significant margin. Excellence is a rare phenomenon. As a result, relatively few BSW students earn A grades.

Grades of B signify good or high quality scholarly products and academic or professional performance. Grades in the B range reflect work expected of a conscientious student in a professional program. Criteria for assignments are met in a competent, thoughtful, and professional manner. However, the criteria are not exceeded and the quality is not substantially superior to other good quality products or performances. There is a clear distinction between the good and the excellent. We expect that most BSW students will earn grades in the B range—reflecting the good or high quality work expected of competent future helping professionals.

Grades of C and C+ signify work that is marginal in nature. The scholarly products or professional performances meet many but not all of the expected criteria. The work approaches but does not quite meet the standards of quality expected of a student in a professional school. Satisfactory in many respects, its quality is not consistently so and cannot be considered of good or high quality. We anticipate that a minority of BSW students will earn C and C+ grades.

Grades of C- and lower reflect work that is unsatisfactory. The products or performances do not meet several, many, or most of the criteria. The work fails to approach the standards of quality expected of a student and a future BSW-level professional. We anticipate that a small percentage of BSW students will earn unsatisfactory grades of C-, D, and F.
Grading scale
Grade minimums are as follows [Note: grades below a C are Unsatisfactory in the BSW Program]:

- **A**  93%  Excellent, Exceptional Quality
- **A-**  90%  Superior Quality
- **B+**  87%  Very Good, Slightly Higher Quality
- **B**  83%  Good, High Quality (expected of most BSW students)
- **B-**  80%  Satisfactory Quality
- **C+**  77%  Marginal, Modestly Acceptable Quality
- **C**  73%  Marginal, Minimally Acceptable Quality
- **C-**  70%  Unsatisfactory Quality

Course Policies

Assignment
Students are expected to submit all assignments on time. If you need to extend a deadline you MUST speak to me in advance of the due date to get an approval and an agreement will be reached. Late submission (except by prior agreement) will be marked down 5% per day late. IU has a subscription with the Turnitin plagiarism detection service, and faculty members have the right to submit student papers to the service to check for originality. Turnitin.com service will be used for all student papers in this course.

Attendance and participation
Students are expected to attend and participate in all class sessions. Students should complete readings and homework as assigned and come to class prepared for discussion and questions. Because of the nature of this course and group assignments, regular attendance is required and extremely important. Class attendance and active participation in class activities are considered essential for the satisfactory completion of the course objectives. If you are absent, it is your responsibility to get notes from other students regarding materials covered during your absence. If you are absent on the day when an assignment is due, you need to submit your assignment before the beginning of the class. Missing more than 2 of the scheduled classes will result in a letter-grade deduction for the course. Late arrivals and early departures will also lead to course point deductions. It’s up to instructor’s discretion to decide the deduction points. If you miss five or more classes you will fail the course.
